

5 STEPS TO ACHIEVE ONE-STAR IN THE FIA ENVIRONMENTAL ACCREDITATION PROGRAMME

DESIGN A BETTER FUTURE FOR YOUR CLUB TODAY

1

EVALUATE YOUR ORGANISATION'S ENVIRONMENTAL EFFORTS

- Complete the initial evaluation form and send it to afe@fia.com.
- If any of your answers is "no" or "not sure", consult the FIA's one-star tutorial for guidance.

2

SEEK GUIDANCE FROM THE FIA

- Based on your initial evaluation, the FIA Sustainability team will discuss **potential areas for improvement** with you.
- The aim is to **maximise your chances of obtaining one-star accreditation**.

3

STRENGTHEN YOUR COMMITMENT AND SUBMIT THE APPLICATION

- Address the **gaps identified with the FIA team** to prepare for the audit and increase your chances of successful outcome.
- Once this work is completed, **fill out the application form and send it**, along with supporting documents, to afe@fia.com.

4

PROVIDE EVIDENCE AND AWAIT THE AUDIT RESULT

The auditor will evaluate your application, which can result in one of two outcomes:

- **Positive:** If everything is in order, you will receive confirmation of your one-star accreditation shortly.
- **Negative:** further evidence needs to be provided to meet the one-star requirements.

5

CONGRATULATIONS ON ACHIEVING ONE-STAR ACCREDITATION!

- You will shortly receive your **certificate and audit report with additional recommendations**.
- **The accreditation is valid for two years.** We encourage you to continue improving your organisation's environmental performance during this period.
